Type of view

The screenshot shows a web application interface for managing reservations. At the top, there is a navigation bar with a search field, a notification icon with the number 9, the user name 'Admin GHS', a flag icon, and a menu icon. Below the navigation bar, the main heading is 'Table Reservation'. There are two tabs: 'Reservations' (which is selected and highlighted with a red box) and 'Restaurants'. Below the tabs are navigation buttons: '<', '>', and 'Today'. The main content area displays a calendar for the period 'Jan 20 - 26, 2019'. On the right side of the calendar, there are four view options: 'List', 'Day', 'Week', and 'Month'. The 'List' view is selected and highlighted with a red box. The calendar shows reservations for Monday, Tuesday, and Wednesday. Each reservation entry includes a time slot, a status indicator (a blue dot), a reservation ID, the name of the guest, the number of guests, and the restaurant name.
